

Winter weather advice

Winter weather can affect kerbside collections and recycling sites. As in previous years our advice is:

- When it's **windy**, weigh down loose materials, stack boxes with the locked food waste bin on top. Squash all except glass and aerosols to reduce the risk of light items being blown out of boxes and causing mess down your street.
- When it's **wet** recycle as normal - except for textiles, clothes or shoes (keep dry in plastic bags, not black sacks); wet recycling is not a problem.
- Whilst all efforts will be made to maintain services, if safe, in **severe weather**, services may be delayed or suspended; check the [SWP website](#) or follow us on [Facebook](#) or [Twitter](#) for latest news. We will update partners twice daily in severe weather.
- If a collection is missed during widespread disruption:
 - please put out missed containers by 7am for up to **four calendar days for recycling**, and up to **seven calendar days for rubbish**.
 - In the unlikely event we've still not been able to collect waste, please take containers back in and put them out by 7am on the next usual collection day.
 - Recycling Centres can be used to clear waste with no wait or worry, including garden waste if you can't [compost at home](#)

- Where possible, clear snow and ice from pavements yourself ([advice available here](#)) as this helps pedestrians, kerbside collectors and your postman or postwoman.
- Finally, please do help friends, family and neighbours, particularly anyone elderly, infirm or disabled with containers (and remind them about our [assisted collections](#) service) or in taking excess materials to recycling sites, especially during severe weather.

Festive collection changes

All pick-ups will be two days later in the first festive week, and one day later in the second. There will be no [rubbish or recycling collections](#) – including clinical and assisted collections – on Christmas Day, Boxing Day or New Year's Day. Crews will be working the weekend of 30th and 31st December to catch up, so please help them by recycling all you can, separating your recyclable materials and reducing waste wherever possible:
